## MEET OUR PROFESSIONALS

In Stephenson Academy we understand very well the value of reliable, competent and immediately available project personnel for your offshore projects.

By conducting a full recruitment process, from search and selection of qualified candidates to headhunting and background screening, we pride ourselves on being able to find the right candidate for your projects.

From on-off short term assignments to long-term project support and advice, we are there to assist.

A competent workforce means a safe workforce and this is crucial to our business and our clients' business.

Drawing upon our first-hand knowledge within the industry and utilising our extensive database and network, we provide professionals for engineering and project positions, all the way to operations and management.

We offer consultants who are available to provide first-hand knowledge and advice in respect of the planning and delivery of both onshore and offshore projects, including wind farms development. Our consultants can provide practical and operational advice to ensure that project development strategies are robust, achievable, and aligned with industry best practice and they are always supported by highly skilled professionals available from our offices.

In Stephenson Academy we arrange and administer all travel and logistics issues to meet your needs even at short notice; through to visa and work permit application processes, we take care of all is necessary to make the right people available to you on site and on time. We provide 24/7 support, whether it is a situation that requires emergency repatriation, or out of hours contact to provide assistance in urgent matters, we make sure that your needs are accommodated.

We strive to ensure that all personnel are suitably skilled and capable for any tasks required of them. We also have a high regard for continuing professional development of our contractors. To help facilitate this, we organise regular training courses and workshops, whether this be through our global training partnerships, or calling upon our in-house expertise. We also support the industry as a whole by offering training and lecturing to independent and third-party organisations.
